#### ■To Attendees with Small Children

- ●ID (with your name and address, contact

details of your family and friends)

- •Small garbage bags (to collect your trash)

#### ■Regarding Consumption of Alcohol

As it is a celebratory occasion marking the 40th anniversary of Comiket, you are welcome to toast with friends. We ask you however, to adhere to the following rules.

- Be sensible and do not cause nuisance to the people around you.
- ●You must not drink if you are a minor (under 20 years old), or if you are planning to drive.
- You must not offer or force alcoholic drinks on a minor (under 20 years old), or someone who is planning to drive.

### ■Do not loiter overnight or arrive at the venue during late night hours!

### Please respect public manners and make Comiket enjoyable

Perhaps it was the desire for freedom to self-express present in everyone that gave birth to Comiket 40 years ago. However the social environment has changed with the passing of the time, and it has become necessary for Comiket to refocus its raison d'etre, from "welcoming any manifestation of self-expression" to "maintaining continuity of the event". This decision has resulted in the adoption of numerous restrictions at Comiket. We have been seeking ways to coexist happily with the wider society, while continuing to

provide a space for free expressions.

There is one particular issue that is crucial for the survival of Comiket, which we ask everyone to think about:

### The problem of attendees who loiter overnight or arrive during late hours

These activities are absolutely unacceptable, and here's why:

- ●It has become a security concern for the neighborhood, as people loiter around the venue late at night. There have been incidents of theft and mugging targeted at those who arrive during late night hours. We have been severely reprimanded by the police as a result.
- ●There have been many complaints from neighboring facilities pertaining to those arriving late at night, trespassed inside buildings and private property to spend the night, and / or causing defacing and destruction of private property, (e.g. trampling on lawns) and leaving behind trash strewn everywhere.
- ●Many attendees who arrive during the night fall sick and collapse as a result from spending long hours being exposed to elements. Waiting in line for entry into Comiket for an extended duration is very tiring and may have adverse effects on your condition, in some cases resulting in hypothermia. Such incident must not be taken lightly as it can be fatal, which in turn will make it impossible for Comiket to rent the facilities next time. With no venue available, there can be no Comiket, and all of us will lose that precious space of we call our own.

•Please be aware that a considerable proportion of the budget is being spent to tackle the issue of the "overnighters and late arrivers". While this diversion of funds toward accommodating unwanted visitors is unavoidable for the safe operation of Comiket, but we wish everyone to recognize that it is placing unreasonable and not-sosmall burden on other participants. Please think about the individual responsibilities, in order to maintain this space for all forms of self-expressions, for ourselves and for the next generation who may follow in our footsteps to become part of our community. It is a mission for all of us to guard and nurture this unique space.

### ■Guidelines on Entering Comiket

### ■When you are approaching the line holding area

- 1. Comiket staff will guide you to the line holding area to join the waiting line. Please follow their instructions.
- 2. You must not go through areas which are marked out of bounds.
- 3. Be aware that during some hours, such as during loading hours in the morning, there are situations where delivery vehicles are given priority over pedestrians for road access.
- 4. You will be asked to wait in line at the line holding area until the event opening time.

### ■From the line holding area to the venue entrance

1. Please do not leave your place in the line, until the line is fixed and the time when the line will start to move is announced.

- 2. You must not cut into the line, or hold places for others arriving later.
- 3. If you must leave the line to go to the toilet or to get food and drink, please note your position before you go by checking people who are in the line around you.
- 4. You are asked to take responsibility for looking after your own valuables.
- 5. Once the line starts to move, you will not be allowed to rejoin the line. Be sure to finish shopping or use the toilet BEFORE the time announced by the staff.
- 6. Please refrain from any activities which may cause nuisance to local shops and restaurants, such as asking to change paper currency into coins.
- 7. Please do not leave your belongings behind, including the trash, when you move along the line.
- 8. There are instances where the line will come to a halt, but please do not leave the line as it may start to move again at any moment.

### ■Other reminders until the event opening time

- If you are meeting up with other members of your party, please be sure to arrange ahead of time certain details, such as the location, time and the contact numbers, to avoid being confused during Comiket. (DO NOT arrange to meet up at the circle entry gates or at the station ticket barrier as these locations will be very congested.)
- 2. The line holding area will be an open outdoor space. Please dress appropriately for the weather, and take care of your own well-being.

3. Please refrain from using umbrellas as they will take up too much space in tightly organized lines. We ask you to use raincoats instead.

### ■Disaster Prevention

#### ■Regarding disaster prevention

As a huge number of attendees come to Comiket, there is also a potential for large number of casualties if a natural disaster was to strike. It is necessary to have measures in place to prevent such outcome, but it is equally important that each attendee takes a moment to think what may happen and be aware of your surroundings on a regular basis.

#### ■At all times

Please respect following rules at all times during event:

- 1. Do not sit down on the floor, or leave your baggage unattended.
- 2. Do not run or push other people.

#### **■**Using Escalators

Safety mechanism may be triggered and cause the escalator to stop if it is overloaded or if small items or parts of clothing, such as the skirt hem, get caught between the steps. Please follow the following guideline when using an escalator.

- 1. Do not walk on escalators.
- 2. Baggage carts and trolleys with excessive load are not permitted on escalators.
- 3. Please lift up long trailing skirts and other parts of the clothing, which may get caught between the steps.
- Please be sure to hold onto small pieces of accessories and other items which may detach and fall accidentally.

## ■ Facility Security Measures

We ask all attendees for their cooperation to follow these following steps to prevent incidents and crimes at Comic Market.

### ■What to do if you see a suspicious object

An object is deemed suspicious if its owner and its content are unknown. If you find an unusual object at Comiket, ask the people nearby if it belongs to anyone. If it remains unclaimed, call a member of Comiket staff. Basic rules when you find a suspicious object are: "Don't touch it! Don' sniff it! Don't disturb it!" Please do not take matters into your own hands. Also raising excessive alarm about such incidents will cause the crowd to panic. We ask you to remain calm and act swiftly.

There will be a safety announcement at 10:40, at which point all attendees are asked to check their surroundings for any suspicious objects.

### ■In case of a major incident, e.g. natural disaster.

In case of an emergency, such as fire, do not panic but follow the instructions by Comiket staff. You must act swiftly; leave large baggage behind, and only take the valuables with you.

### First Aid

The first aid station will be available for the duration of the event, to those who have suffered injury or have become ill. Please be reminded that visiting the first aid station should limited to cases where someone is so ill that they are unable to recover on their own.

The first aid station is located in Conference Room 3 on the north side of Hall 3. There are two first aid tents located in South Court B and Outdoor Exhibition Space (West Car Park). See map on p.8 for more detail. Both the first aid station and aid tents can only provide rudimentary care, and the attendees are asked to look after themselves by being prepared. We suggest packing items listed on p.18 when coming to Comiket.

#### ■When using the first aid station

Although the first aid station is staffed by doctors and nurses, it has limited facilities and little medication. As it can only provide simple first aid treatments (typical of a school's nurse's office), we ask the attendees to bring their own supply of necessary items.

\*We ask attendees to purchase for themselves any items which are available from convenience stores. General medication such as painkillers and cold remedies stocked at the first aid station are purchased using funds gathered through circle participants fees. There is a limit to the stock, and we would appreciate your understanding that these should be given to patients in genuine need.

### ■If you have a pre-existing medical condition

Please be aware that Comic Market may prove to be a harsh environment for some people. As stated previously, there will be no stock of prescription medication.

If you have a pre-existing medical condition that requires certain medication, please be sure to bring your own stock when attending the event. It would be helpful to have a copy of prescription as well, specifying the name of the medication and prescribed dosage.

If you have a pre-existing medical condition and

are considering a visit to Comiket, please consult your doctor beforehand to be advised on your ability to attend. (We have produced a paragraph outlining Comiket, which can be shown to your primary care provider/s to assist in your decision making process. See below.)

To Primary Health Care Provider/Doctor in Charge,

Your patient, who is asking your advise, is about to embark to Japan in order to attend a large scale social event for like-minded fans. This venue will be attended by large numbers of people (above 15,000) and it will be crowded.

If there is a distinct possibility that your patient's condition could worsen as a result of exposure to high stresses and/or shock as a result of attending large and crowded places, please provide advise to your patient regarding how to prevent and/or address such complications. Also, if your patient's illness is being managed through medication, please write out the exact name of the illness, the primary active ingredient in the patient's prescription and its dosage, and the most common symptoms that would arise from the onset of your patient's illness. Instruct your patient to carry this information on-hand so that it can be easily be referenced in case of emergencies.

Please be advised that the medical aid team on site at Comic Market can only guide someone who has fallen ill to a hospital we feel would best meet the needs of the patient. We cannot administer medical treatment at Comic Market. Thank you for your understanding and please make sure that your patient understands these risks involved and takes appropriate measures.

#### ■If you see a sick or injured person

If you see a sick or injured person, cooperate with other attendees and call a Comiket staff immediately. PLEASE DO NOT CALL FOR AN AMBULANCE. This is necessary to avoid possible confusion from having a number of attendees making multiple emergency calls for the same incident, and also to allow an ambulance to reach the patient swiftly. It would be helpful if you can stay with the patient until the staff arrives on the scene. Please cooperate with the venue and the emergency crew, to enable swift and effective response.

### ■Lastly, first aid at Comiket Special 6 is different from regular Comiket

We have changed the name from first aid to first aid station at Comiket Special 6.

The floor space for first aid is smaller than at regular sessions of Comiket, and therefore the number of patients who can be admitted is also smaller.

Please look after your own well-being, and enjoy a safe and sound day at the event.

## **About Cosplay**

Cosplay is an act of donning costumes of characters from manga, anime and games, and those of TV and movie stars, or wearing real life occupational uniforms, to dress up and transform into someone else. What distinguishes cosplay from simply dressing up in fancy dress, is the attitude of the person in costume: his / her passion for the character and the manga, anime, game etc from which it is lifted, and his / her enthusiasm to act in character. Comiket recognizes and respects cosplay as another form of self-expression.

We also recognize that there is much fun to be had in meeting new friends and socializing with others through shared passion for cosplay.

There is a specific guideline at Comiket, which we ask everyone to follow. Please respect rules and manners, be considerate to other attendees, and enjoy cosplay at Comiket.
